modum

IT Modum si rinnova con una prima collezione che nasce da un nuovo approccio al design. La sua rinnovata identità nasce dall'osservazione delle relazioni tra lo spazio e l'individuo, in cui emergono nuove esigenze che si manifestano in diversi modi di vivere. Questo porta a oggetti immersivi ed empatici, forme e soluzioni in cui riconoscersi.

EN Modum is presented, after a transformation, through a first collection that comes from a new approach to design. The brand's renewed identity originates from the observation of the relationships between space and individual. Emerging new needs are translated into different ways of living, giving life to new objects, shapes and solutions that are immersive and empathic, and in which people can identify.

Modum interpreta il modo di vivere gli spazi, creando relazioni tra le persone e i contesti

EN **Modum interprets real ways of living spaces, creating relationships between people and contexts**

IT L’oggetto è progettato per essere adattabile e arricchito attraverso le interazioni con l’ambiente circostante e gli utenti. Modum osserva i significati degli spazi abitativi, rispondendo alle nuove esigenze e interpretandole a modo suo. Questo permette di creare forme, gesti e situazioni uniche.

EN The object is designed to be adaptable and is enriched through interactions with the surrounding environment and the users. Modum observes the meanings of living spaces, responding to new needs and interpreting them in his own way. This allows to create unique shapes, gestures, and situations.

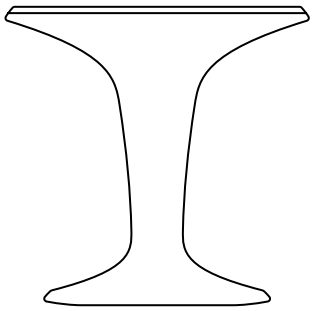
Tavolino
Balcony



EN ***Balcony*** **coffee table**

IT La bicromia della panca viene ripresa nel tavolino, così come le forme morbide e le scanalature ritmiche che caratterizzano l'intera collezione. Il piano in legno naturale interpreta in chiave materica il legame con la natura. Che venga utilizzato come tavolino da caffè o come complemento d'arredo, questo tavolino non mancherà di stupire.

EN The duotone of the bench is also found in the coffee table, as well as the soft shapes and rhythmic grooves that characterize the entire collection.
